

NOTICE OF TEMPORARY STREET CLOSURE FOR RESURFACING

FROM: City of San Ramon, Engineering Services Department

PLANNED WORK DATE: August to October, 2015

SCHEDULED DATE OF CLOSURE: Monday, September 14, to Friday, September 18, 2015

HOURS: Generally, 8:00 AM to 4:30 PM (unless otherwise posted)

LOCATION: See the attached Planned Work Schedule

WHAT'S BEING DONE:

Your street will be resurfaced with an asphalt emulsion mixed with small gravel and sand known as micro-surfacing seal.

HOW YOU WILL BE AFFECTED:

During the planned work dates, road crews under contract with the City of San Ramon will carry out resurfacing operations at the location that may affect your normal parking and driving habits. "No Parking" signs are to be posted at least two days in advance of each work day to notify you of planned dates of construction. On those dates, you should expect heavy equipment and noise. After the sealant is applied, it will remain sticky for up to 4 hours. You should take extra precautions with children and pets to avoid any contact with the fresh sealant. This material will permanently stain driveways, clothing, and carpeting.

PARKING AND DRIVING RESTRICTIONS:

A portion of your street will be closed only on one day of the nine days the micro-surfacing seal treatment is to be applied to your neighborhood. No parking or driving will be permitted on the days of resurfacing. Therefore, you should make sure that your car is not parked in the posted roadway between the hours shown on the signs. The closure dates are tentatively scheduled for Monday, September 14, to Friday, September 18, 2015. If you need to drive your car during the hours of closure, you will need to plan to park on the nearby streets or other locations not designated for closure by "No Parking" signs. Any cars remaining on the street during the posted hours will be towed. (NOTE: In the event that rain or other unforeseen delays, the work will be rescheduled as soon as possible.)

Your street will remain open on all other work days while preparatory and restriping operations are in progress. On these other work days, you will have two options for parking:

(CONTINUED ON REVERSE SIDE)

- 1) Park in Driveway or Garage
You may choose to park in your garage or driveway, but you must expect possible delays and/or adverse driving surfaces. Delays are uncommon, and when they occur, are usually less than 10-15 minutes. However, if crews encounter difficulties immediately in front of your driveway, there is a slight risk of delays reaching 1-2 hours. Most people who choose this option experience little or no inconvenience.
- 2) Park on Nearby Street Not Designated for Construction
If you cannot afford to be delayed, or if you object to driving under adverse road conditions, you should plan to park on another nearby street not posted for work, and walk between your house and car. Unfortunately, due to many unforeseen conflicts that occur routinely, we cannot guarantee that the work will occur on the date scheduled. If you need assistance, or have a conflict with the work, you can telephone 973-2670. Arrangements will be made to accommodate your special needs.

IMPACT ON OTHER SERVICES (GARBAGE PICK-UP, MAIL, ETC.):

You should not expect any change in scheduled dates for delivery or pick-up services (mail, garbage collection, etc.) Although delivery times may change, dates will not be affected. You will be notified by flyer of any exceptions.

Thank you for your patience and cooperation! If you have questions or concerns, please call 973-2670.

**PLANNED WORK SCHEDULE
